

ROOF REQUEST FOR APPROVAL
Complete and return to the Management Company

Owner name(s) _____

Address _____ Villa # _____

Circle one:
complete re-roof partial re-roof roof repair tile installation following
remodel

If less than a complete re-roof, please indicate nature of work (i.e., repair, install skylight, cover atrium, etc.) and submit plans showing roof section to be repaired.

The approved tile is Eagle Tile, Profile: Ponderosa, Product No. 5502. Name: Arcadia. Description: Brown, black streaks.

Expected date of beginning _____

Expected date of completion _____

I have read and agree to the requirements for roof installation and repair as outlined in the GOM Architectural Standards section of the Rules and Regulations. I understand that for partial roof replacement, repair or remodels, the entire flat roof section (field) of the affected roof area will be replaced with the approved tile unless I request an exception.

Requesting an Exception: Yes _____ No _____ If yes, I have a sufficient number of the original or color-matched tiles available to complete my repair/remodel and would like a variance to install less than the full flat roof section (field). I understand that this requires an inspection of my proposed replacement tiles by a member of the Architecture Committee. (See note.)
